The newly-upgraded Iridium® network provides enhanced reliability for existing products and services.

- Longevity
- Improved Voice Quality
- Higher Capacity
- Global Coverage
- Faster Call Connections
- New Capabilities
Existing Iridium products are forward-compatible with the upgraded network, meaning they will continue to provide reliable communications for years to come.

The newly-upgraded Iridium network provides enhanced reliability for existing products and services.

- Improved Voice Quality
- Global Coverage
- New Capabilities
- Higher Capacity
- Faster Call Connections
The new Iridium® satellites have higher capacity than ever before, which provides more channels for all services. In areas of high congestion, this significantly reduces the risk of dropped calls.

Reliability Above All℠
Upgraded Network. Same Proven Reliability.
